Satin moth

Mr. F. P. Keen
~~445~~ U. S. Court House
Portland, Oregon

Dear Mr. Keen:

I am enclosing copy of Mr. Webber's memorandum for R. L. Furniss dated March 26 giving methods of collecting, rearing and dissecting satin moth larvae for parasites, also photographs with list of description of points where the photographs were taken covering areas where satin moth collections were made when he was in Washington State.

I am sending this along for your information. I believe Dr. Craighead has written you direct about the work.

Yours very truly,

C. W. Collins

Senior Entomologist in Charge
